🌐 [linkedin.com/in/nikhiltikle/](https://www.linkedin.com/in/nikhiltikle/)

I am a skilled web developer with over 7 years of experience in HTML, CSS, JavaScript, React, Redux, Material-UI, and Bootstrap. I am dedicated to delivering exceptional results and exceeding client expectations and am always seeking new challenges to improve my skills and knowledge.

Experience

Webonex

Frontend (React) Developer

2019 - Present

- Develops web applications using React library
- Focuses on the client-side implementation of web pages and interfaces
- Works with back-end developers to integrate the UI with data and server-side logic
- Writes clean and reusable code with a focus on performance and scalability
- Debugs and troubleshoots issues related to React components
- Implements state management solutions such as Redux

Tata Consultancy Services

System Engineer

2016 - 2019

- Develops web pages and interfaces using HTML, CSS, and JavaScript
- Collaborates with designers to implement designs and layouts
- Implements responsive design to ensure that the application looks good on all devices
- Implements accessibility features to ensure that the application is usable by everyone
- Ensures that the application is compatible with different browsers and platforms

Skills

- HTML
- CSS
- JavaScript
- React
- Context API
- Jira
- Redux
- Material - UI
- Bootstrap
- Rest API's
- Git
- Unit Testing
- ES6
- React Hooks
- Node Js
- Tailwind
- GitHub
- Sonar

Projects

Digital Event Management Platform

- Developed a Digital Event Management Platform using React.js and popular libraries like React Router, Redux, and Material-UI.
- Implemented CRUD (Create, Read, Update, Delete) operations for event management, allowing users to create, edit, and delete events seamlessly.
- Integrated APIs for real-time data retrieval and storage, providing a seamless user experience and ensuring up-to-date event information.
- Utilized reusable components from popular React libraries such as React DatePicker, React Select, and React Modal, enhancing development efficiency and maintaining consistent UI patterns.
- Leveraged React Router for smooth navigation between different pages and dynamic routing based on event details.
- Implemented state management with Redux, ensuring efficient data flow and maintaining a single source of truth for event-related information.
- Utilized Material-UI library for building responsive and visually appealing UI components, enhancing the overall user experience.
- Implemented form validation using libraries like Formik and Yup, ensuring accurate and error-free event data submission.

Application Tracking System

- Developed intuitive and visually appealing interfaces using modern web technologies.
- Implemented front-end functionality, including reusable components and client-side form validation.
- Ensured compatibility across different browsers and resolved compatibility issues.
- Analyzed and optimized the application's performance, including asset compression and lazy loading.
- Followed accessibility guidelines and implemented features for users with disabilities.
- Wrote clean, modular, and well-documented code following best practices and coding standards.
- Identified and resolved UI-related bugs and collaborated with the backend team for integration issues.
- Stayed updated with front-end development trends, shared knowledge, and mentored junior developers.
- Collaborated with UX designers and stakeholders, participated in agile processes, and communicated effectively.
- Conducted user research, gathered feedback, and implemented UI enhancements based on user needs.

Education

Rajiv Gandhi Prodyogiki Vishwavidyalaya

2012 - 2016

Bachelor of Technology

Achievement

- Achieved recognition for successfully delivering high-profile React projects within tight deadlines, exceeding client expectations.
- Introduced efficient React development workflows and tools, improving development processes.
